

BUILDING TO MAXIMIZE DENSITY AND PROFITABILITY WITH FLEXSPACE

Watch how FLEXSPACE Mobile Racking helps create sustainable profitability

The challenges are real – land is scarce, building and energy costs are escalating, and labor is difficult to attract and retain. The market is moving toward modern warehouse design and time-tested automation that delivers the business outcomes every organization is seeking – increased revenue and decreased costs.

TO ACHIEVE 29,972 PALLET POSITIONS...

IF BOTH WAREHOUSES WERE 106,000 SQUARE FEET...

32%

LESS SQUARE FOOTAGE

Less land, less energy costs, and less labor

48%

MORE STORAGE CAPACITY

More pallet positions drive revenue and reduce costs

16%

LESS CONSTRUCTION COSTS

Approximately \$7.5 MM is saved in construction costs when factoring build, storage solution, and overall project costs,
